

New Profound Search Experience

Profound is leading the way in market intelligence by providing the first full-text database enhanced with AI capabilities. Read on to learn how we improved the Profound platform.

AI-Powered Search

Profound AI-Powered Search delivers highly relevant results on the first attempt, saving you both time and money in the search process.

This new and enhanced search option is designed to deliver meaningful results based on the context of your search query using sophisticated AI-technology to find you the best report for your needs.

Profound AI-Powered search is intuitive and easy to use. Toggle the switch to enable.

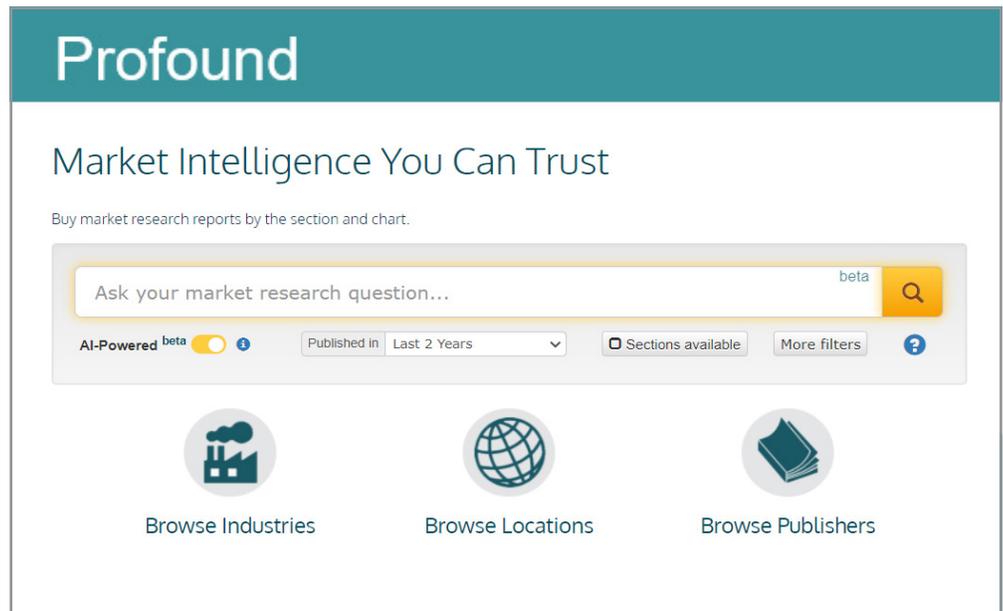

You can ask questions like:

“What are the key factors driving growth of the pharmaceutical packaging market?”

“What is the forecasted value of the US pet grooming market?”

“What is the global demand for RTD coffee?”

Type your queries into the search bar using natural, everyday language.
